## The Key Issues

SHEER SIZE

LOSS OF  
PRODUCTIVE LAND

VISUAL IMPACT

LOSS OF AMENITY

TRAFFIC IMPACT

SOURCING  
CONCERNS

HABITAT LOSS

SAFETY  
CONCERNS

Glass, steel and concrete covering an area the size of Lincoln, could sprawl over miles, setting our villages in an industrial landscape. Good farmland locked out for 60yrs, handed instead to global companies, under long-term contracts, paid by us in high electricity bills. Meanwhile commercial roofs lie vacant. Please join us on January 16th 5-7pm at the Venue.
